

What is KAN Be Healthy?

KAN Be Healthy (KBH) is a Medicaid program for children, teenagers, and young adults.

Everyone who is age 20 or under and has a medical card can take part in the KAN Be Healthy program.

There are four KBH Screens:

KAN Be Healthy Medical – Your Body
KAN Be Healthy Vision – Your Eyes

KAN Be Healthy Dental – Your Teeth
KAN Be Healthy Hearing – Your Ears

Stay well with regular KBH screens. KBH medical screens are encouraged at:

KBH helps you get well faster, by getting the care and medicines that you need:

Birth, 1, 2, 4, 6, 9, 12, 15, 18, 24, and 30 months, then yearly for ages 3 through 20.

Your medical card will show you when the next KBH Medical Screen is due. If your KBH Medical screen does not show on your medical card soon after it is done, call your provider.

KBH medical screens include vision, hearing and dental assessment. The KBH screen follows the Early and Periodic Screening, Diagnostic, and Treatment guidelines and is considered an important tool in preventive health care and developmental screening.

Be certain and request a KBH screen when calling to schedule your appointment.
